# Foreword

Dear course participant

Welcome to the certificate course of qualified persons for the inspection of ladders, steps, mobile working platforms and small scaffolds from Hailo.

We are pleased that you have chosen Hailo and are thankful for your confidence in the quality of our training.

This course will provide you with basic legal and technical knowledge on the selection, intended use, testing and repair options for portable ladders, steps, mobile working platforms and small scaffolds. The certificate you will receive after successfully passing the integrated tests, will certify that you have the current level of knowledge of the regulations and technology in this subject area. This means that you fulfil one of the prerequisites for being commissioned as a qualified person to inspect ladders, steps and mobile scaffolds. In the process of the course, you will learn what other requirements must be met.

And of course, much more ...

We thank you in advance for your evaluations and feedback. They give us the opportunity to take your wishes and suggestions into account in the further development of this offer and to continuously improve its quality.

We wish you much pleasure and success and are looking forward to welcoming you to other courses.

Hailo - Team
